

## **Delta Planning – Graduate Opportunity 2024**

An opportunity has arisen for a talented planning graduate to join Delta Planning in September 2024.

Delta Planning is a niche town planning consultancy firm based in Central Birmingham with a growing reputation and loyal client following. We have a team of 7 staff, 5 of whom are RTPI qualified. Information about the company and the type of projects involved can be obtained at [www.deltaplanning.co.uk](http://www.deltaplanning.co.uk)

Candidates should demonstrate a commitment to pursuing a professional career in Town Planning and ideally have some previous work experience either within a private sector consultancy or local planning authority. Candidates should ideally demonstrate a good geographical knowledge of the Midlands as this is where the majority of Delta Planning work is undertaken.

The role will involve supporting the business in delivering planning consultancy expertise to a variety of clients ranging from commercial developers and house builders to education institutions. Work tasks will include undertaking site appraisals, preparing planning applications and related consents, preparing development plan representations, assisting with planning appeals and undertaking the data/information research required to fulfil these various tasks. Much of the company's business involves the preparation and negotiation of planning applications and therefore a keen interest in the development management process is essential.

The role is tailored to supporting individuals looking to launch a planning career in the Midlands and to working towards their RTPI qualifications. Delta Planning has a strong reputation and commitment to staff training and development and the successful candidate will be fully supported with their preparation for Assessment of Professional Competence (APC).

Interested applicants should email their CV to the Company Director David Green at [david@deltaplanning.co.uk](mailto:david@deltaplanning.co.uk)

Closing date for initial applications is 30 November 2023.
